

Easy color,  
anywhere,  
every time?  
Why not!

Homogeneous, deagglomerated powder, an easy-to-use coloring compound.

## Product Information TopMill®

**BIOGRUND's** ready-to-use coloring agent **TopMill®** provides a homogeneous solid-color product. It is a unique, dry milled, homogeneous and deagglomerated blend of colors with additional excipients.

**TopMill®** is a ready-to-use master batch, developed for the coloring of all kinds of solid dosage forms. It can be used in powder or liquid in a simple and easy way. The optimized composition is easily soluble, and a reproducible high-quality color can be guaranteed. Due to its excellent compatibility with other excipients and active ingredients, tailor-made solutions are possible – a unique appearance for your products!

Regulatory and quality aspects: All **TopMill®** formulations are developed to meet the official regulatory requirements of the user's country for pharmaceutical products and for nutritional or dietary supplements.

## Product Performance

## General Information on BIOGRUND

Since 1999, **BIOGRUND** has been the specialist for the homogeneous mixing of excipients and carriers. With locations in Germany, Switzerland, America and Russia, we support the food supplement and pharmaceutical industry in the development, formulation and production of solid oral dosage forms. The tailor-made and ready-to-use special powder mixtures for film coating, sugar-coating, coloring and tableting enable optimum results in a short time. Easy, fast and reliable!

Pearlescent  
solid-colored  
tablets?  
Why not!

High aesthetic value,  
simplified coloring of  
tablets, pellets, granules.

## General Information on BIOGRUND

Since 1999, **BIOGRUND** has been the specialist for the homogeneous mixing of excipients and carriers. With locations in Germany, Switzerland, America and Russia, we support the food supplement and pharmaceutical industry in the development, formulation and production of solid oral dosage forms. The tailor-made and ready-to-use special powder mixtures for film coating, sugar-coating, coloring and tableting enable optimum results in a short time. Easy, fast and reliable!

## Product Information TopMill® G

**BIOGRUND's** ready-to-use coloring agent **TopMill® G** provides a homogeneous solid-colored product. It is a unique, dry milled, homogeneous blend of **Candurin®** pearl effect colors with additional excipients. The widely approved mineral colors are based on natural silicate combined with titanium dioxide and/or iron oxide and give your tablets a brilliant and unique appearance.

**TopMill® G** is a ready-to-use master batch, developed for the coloring of all kinds of solid dosage forms. It is easy to suspend and a reproducible high-quality color can be guaranteed, which has been proved at Budenheim's Tableting Competence Center (TCC).

A unique and exquisite range of **Candurin®** is available – from silver and gold, or interference up to iron oxide shades of red and bronze.

Due to its excellent compatibility with other colors, tailor-made solutions can be offered – an unmistakable appearance for your products!

Regulatory and quality aspects: All **TopMill® G** formulations are developed to meet the official regulatory requirements of the user's country for pharmaceutical products and for nutritional or dietary supplements.

# Marking your product in a simple and safe way? Why not?

A ready-to-use printing ink for  
nutritional and pharmaceutical  
products.

 **BIOGRUND**

## Product Information BonuPrint®

**BIOGRUND's** ready-to-use printing ink **BonuPrint®** is a fine, homogeneous, liquid pigment dispersion for solid oral dosage forms, available as an organic or aqueous solution.

Protect your product against counterfeiting by printing your logo, brand name or barcode onto the tablet. Furthermore it increases the safety of patients by making it easier to distinguish between different tablets and capsules.

Labels with security features are required by law increasingly in order to ensure the traceability and anti-counterfeiting of medicines. Using **BonuPrint®** as a reliable printing ink for tablets, capsules and sugar-coated tablets has a positive effect to your quality assurance. A reproducible high-quality color can be guaranteed for all **BonuPrint®** products. White, black or colored dispersions can be individually created for different products and tailor-made according to customer requirements.

Regulatory and quality aspects: All **BonuPrint®** formulations are developed to meet the official regulatory requirements of the user's country for pharmaceutical products and for nutritional or dietary supplements.
