

Future-proofing Tablet Formulations

PURA Series™ MCC

PURA Series™ MCC offers a versatile portfolio tailored to the needs of the pharmaceutical and nutraceutical industries and beyond, with a broad range of particle sizes and unique morphologies. Every product in the PURA Series™ delivers the highest standards of purity and quality – while setting a new benchmark in sustainability compared to traditional MCCs. With PURA Series™ MCC, you can future-proof your formulations and transform MCC into a true competitive advantage.

- * Exceptional Purity and Quality
- * Ultra-low Nitrite Levels
- * Low Carbon Footprint
- * Secured European Supply

Nordic Bioproducts Group follows Excipient GMP protocol and Pharmacopoeia Standards. The facility and processes are ISO 9001:2015 and EXCiPACT certified, ensuring high standards of quality management and good manufacturing practices.

PURA Series™

Turn your excipient into a competitive edge

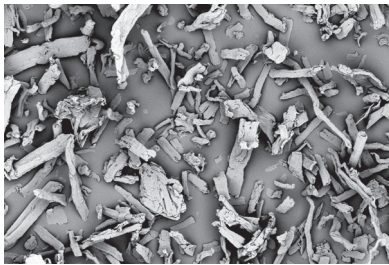

The revolutionary sustainability, exceptional purity, and ultra-low nitrite levels of PURA Series™ MCC let you turn your excipient into a true competitive edge in tablet formulations.

PURA Series™ Universal Premium delivers highest quality with market-standard grade properties.

PURA Series™ Super Flow, our flagship granular MCC range, delivers superior flowability and high bulk density for demanding tablet formulations.

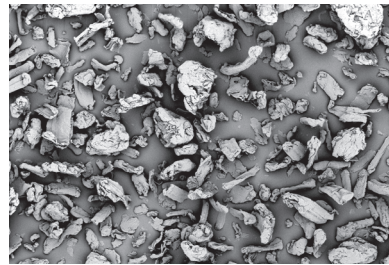

PURA Series™ Universal Premium 45

100µm

Mag = 500X

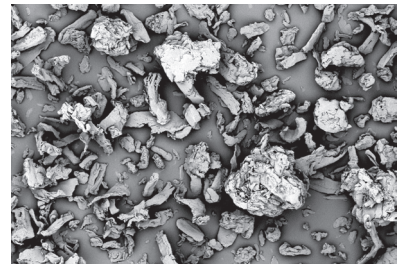

PURA Series™ Universal Premium 65

200µm

Mag = 400X

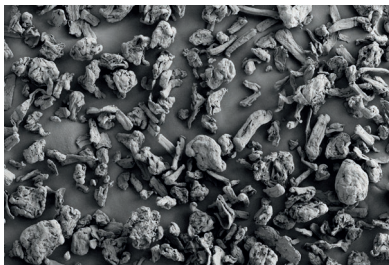

PURA Series™ Universal Premium 95

200µm

Mag = 400X

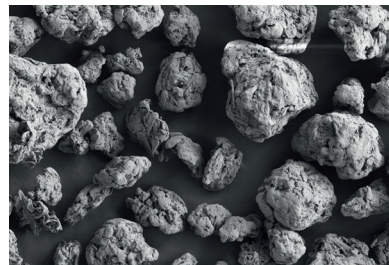

PURA Series™ Super Flow 75

100µm

Mag = 100X

PURA Series™ Super Flow 150

100µm

Mag = 100X

Packaging:

20 kg & 25 kg paper bag
with PE liner

Compliant with:

Pharmacopoeias: Ph. Eur., USP–NF, JP
Food regulations: EU 231/2012
(E460(i))

Grade	Avg Particle Size (µm)	Bulk Density (g/ml)	Loss of Drying (%)	Angle of Repose
PURA Series™ Universal Premium 45	45	0.25	2.0 - 7.0	NA
PURA Series™ Universal Premium 65	65	0.30	2.0 - 7.0	37
PURA Series™ Universal Premium 95	95	0.35	2.0 - 7.0	37
PURA Series™ Super Flow 75	75	0.50	2.0 - 7.0	29
PURA Series™ Super Flow 150	150	0.60	2.0 - 7.0	26
