

AAPS PharmSci 360

New Orleans | 25–28 October 2026

Partners and wider network

Confirmed booth numbers. Poster sessions take place separately from company booths.

Asahi Kasei / Ceolus	1437	IOI Oleo	1410
Ashland	925	JRS Pharma	1239
BASF	2020	KLK Oleo Life Science	1836
Captisol / Ligand	1800	Lipoid	1611
Clariant	1705	Lonza Capsugel	1537
Croda / Avanti Research	1418	Lonza	1010
DFE Pharma	1242	MEGGLE	1600
Dow	825	Pfanstiehl	1524
Evonik	1009	Roquette	1100
Gattefossé	1318	Seppic	1404

WIDER NETWORK

Glatt Booth 1312	WAB Booth 1430	Tomita Pharmaceutical Booth 1436
---------------------	-------------------	-------------------------------------

Glatt also presents on nanomilling and fluid bed processing: Monday, 12:30–13:30, Stage 4. No specific poster was verified for Glatt, WAB or Tomita.

POSTERS WITHOUT A SEPARATE BOOTH LISTING

Shin-Etsu and Lubrizol

Still unconfirmed: SPI Pharma, Fuji Chemical, PMC Isochem and Nagase Viita. An unconfirmed listing does not establish absence.

Use pages 2–4 for the poster timetable and page 5 for selected talks. This guide covers verified contributions found in the public programme and company announcements; it is not an exhaustive abstract catalogue.

Booth source: official AAPS 2026 exhibitor directory. The wider network additions are Glatt, WAB and Tomita.

AAPS PharmSci 360

New Orleans | 25–28 October 2026

Monday 26 October | Posters

18 verified entries • Poster area: Exhibit Hall BC • Times: New Orleans CDT (UTC–5)

09:30–10:30 Poster session	Asahi Kasei Structural analysis of cholesterol-modified hyaluronic acid formulations	POSTER M0930-04-21
09:30 start Poster session	Roquette Cyclodextrin emulsions without surfactant for topical delivery	POSTER M0930-03-14
10:30–11:30 Poster session	Lonza Capsugel Gastric integrity of Enprotect and Vcaps Plus capsules	POSTER M1030-02-08
10:30 start Poster session	Roquette Reducing viscosity to improve subcutaneous injection	POSTER M1030-01-05
11:30 start Poster session	Roquette Colloidal MCC activation in nasal sprays	POSTER M1130-02-12
12:30–13:30 Poster session	Ashland Permexa C10: improving permeation enhancer flow and compressibility	POSTER M1230-10-56
12:30–13:30 Poster session	MEGGLE MicroceLac Plus: comparison at high drug loading in direct compression	POSTER M1230-02-10
12:30 start Poster session	Roquette HPβCD for processing viscous proteins	POSTER M1230-04-19
12:30 start Poster session	Roquette API size and HPMC in modified release; IMCD collaboration	POSTER M1230-09-49
13:30–14:30 Poster session	Ashland How coating solids, weight gain and processing affect film quality	POSTER M1330-09-53
13:30–14:30 Poster session	Evonik Functionalised capsules to protect GLP-1 agonists from enzymes	POSTER M1330-10-57
13:30–14:30 Poster session	Gattefossé A stepwise approach to making tablets from adsorbed lipid formulations	POSTER M1330-09-48
13:30–14:30 Poster session	Gattefossé TIM-1 screening of lipid formulations; university collaboration	POSTER M1330-01-02
13:30 start Poster session	Roquette HPMC incorporation during dry granulation	POSTER M1330-02-08
13:30 start Poster session	Roquette HPMC molecular weight and release; IMCD collaboration	POSTER M1330-09-49
14:30–15:30 Poster session	Roquette Polymer mucoadhesion in simulated nasal and ocular fluids	POSTER M1430-03-14
14:30 start Poster session	Roquette Methylcellulose and poloxamer in CHO cultures	POSTER M1430-04-19
15:30 start Poster session	Roquette Alginate attributes and melatonin release	POSTER M1530-10-56

Topics are shortened. “Start” = only start time published. Use the full POSTER number to identify each presentation. Click a row in the PDF for the full title, authors and latest source details.

AAPS PharmSci 360

New Orleans | 25–28 October 2026

Tuesday 27 October | Posters

20 verified entries • Poster area: Exhibit Hall BC • Times: New Orleans CDT (UTC−5)

09:30–10:30 Poster session	JRS Pharma Vitamin D3 oil tablets with PROSOLV 730; LIU study, JRS support	POSTER T0930-03-14
09:30–10:30 Poster session	Lonza Capsugel Nitrite extractables from product-contact materials	POSTER T0930-04-19
09:30 start Poster session	Roquette PEO molecular weight, concentration and release	POSTER T0930-09-53
09:30 start Poster session	Roquette Osmotic tablet pull-layer rheology and extrusion	POSTER T0930-03-15
10:30–11:30 Poster session	Ashland Polymeric binders for direct compression at high drug loading	POSTER T1030-03-15
10:30–11:30 Poster session	Gattefossé Lidocaine nanoemulgel development for improved skin permeation	POSTER T1030-09-52
10:30 start Poster session	Roquette Acid selection and pectin gummy texture	POSTER T1030-01-06
11:30–12:30 Poster session	Asahi Kasei Hyaluronic acid nanogels for PROTAC solubility and SC delivery	POSTER T1130-02-08
11:30–12:30 Poster session	Ashland Multifunctional L-HPC performance in oral solid dosage forms	POSTER T1130-10-56
11:30–12:30 Poster session	Lonza Capsugel Comparing nitrites in gelatin and sodium lauryl sulfate	POSTER T1130-04-23
11:30 start Poster session	Roquette Effervescent oral rinse tablets by direct compression	POSTER T1130-01-06
11:30 start Poster session	Roquette HPβCD stabilisation and colon delivery of oral biologics	POSTER T1130-03-13
11:30 start Poster session	Roquette Methylcellulose to reduce cryobanking DMSO	POSTER T1130-04-24
12:30–13:30 Poster session	Evonik Ready-to-fill functionalised capsules for live biotherapeutics	POSTER T1230-10-56
12:30–13:30 Poster session	Lonza Downstream development and scale transition of hot melt extruded ASD tablets	POSTER T1230-04-21
12:30 start Poster session	Roquette Filler-binders in roller-compacted ASDs	POSTER T1230-09-51
14:30–15:30 Poster session	Shin-Etsu Controlling powder properties in spray-dried solid dispersions	POSTER T1430-02-10
15:30–16:30 Poster session	Asahi Kasei Drug interactions with modified hyaluronic acid and release behaviour	POSTER T1530-01-01
15:30–16:30 Poster session	Lubrizol High-load itraconazole ASDs: amorphisation and supersaturation	POSTER T1530-01-06
15:30 start Poster session	Roquette Colloidal MCC processing with inline high-shear mixing	POSTER T1530-10-56

Topics are shortened. “Start” = only start time published. Use the full POSTER number to identify each presentation. JRS entry is an independent LIU study with acknowledged JRS technical support.

AAPS PharmSci 360

New Orleans | 25–28 October 2026

Wednesday 28 October | Posters

9 verified entries • Poster area: Exhibit Hall BC • Times: New Orleans CDT (UTC–5)

09:30–10:30 Poster session	Ashland Lubricant choice: efficiency, dissolution and drug compatibility	POSTER W0930-03-13
09:30–10:30 Poster session	Ashland Gabapentin stability with a new low-temperature melt binder	POSTER W0930-02-09
09:30 start Poster session	Roquette Oxidised alginate for regenerative medicine	POSTER W0930-02-10
10:30–11:30 Poster session	Ashland Binder softening and powder rheology during twin-screw melt granulation	POSTER W1030-07-40
10:30–11:30 Poster session	DFE Pharma Inhalable spray-dried semaglutide: formulation and in vivo evaluation	POSTER W1030-09-49
10:30 start Poster session	Roquette Shear effects in colloidal MCC dispersions	POSTER W1030-04-23
10:30–11:30 Poster session	Shin-Etsu L-HPC with dry binders in twin-screw wet granulation	POSTER W1030-01-03
11:30–12:30 Poster session	BASF Omeprazole: lactose-free formulation and talc-free enteric coating	POSTER W1130-02-11
11:30 start Poster session	Roquette Alginate syringeability for injectable biologics	POSTER W1130-02-09

ANNOUNCED BY ROQUETTE — POSTER NUMBER UNVERIFIED

Semaglutide solubility and stability under stress: Wednesday 28 October, 10:30 start (company announcement). No matching official poster number was found; this entry is excluded from the verified timetable.

Topics are shortened. “Start” = only start time published. Use the full POSTER number to identify each presentation. Click a row in the PDF for the full title, authors and latest source details.

AAPS PharmSci 360

New Orleans | 25–28 October 2026

Selected talks and networking

Additional programme highlights • All times local: New Orleans, CDT (UTC–5)

MON 26 12:15-13:00	Pfanstiehl Arginine–glutamate for concentrated antibody formulations Spotlight Stage C
MON 26 12:30-13:30	Glatt Pharmaceutical Services Nano meets Fluidized Bed: Improving Bioavailability of Poorly Soluble Drugs 360 Stage 4
MON 26 13:30-14:30	Lonza Solvent approaches for spray drying brickdust compounds 360 Stage 1
MON 26 14:00 start	Roquette Excipient properties and drug product performance Stage 2
MON 26 15:00-16:00	Roquette Booth happy hour; no RSVP required Booth 1100
TUE 27 09:30 start	Roquette HPβCD in filtration of concentrated proteins Stage 4
TUE 27 10:30-11:30	Asahi Kasei / Ceolus MCC morphology for robust granulation and continuous tableting Stage 1
TUE 27 14:00 start	Roquette HPβCD for GLP-1 peptide solubility and stability Stage 2
TUE 27 14:45-15:30	DFE Pharma Sara Fathollahi: excipients for continuous direct compression of apixaban Spotlight Stage B
TUE 27 15:30-16:30	BASF Felicitas Guth: poloxamer specialties in drug delivery systems 360 Stage 2
TUE 27 15:30 start	Roquette Microbiota-triggered colon delivery of oral antibodies Room 220–222
TUE 27 15:50-16:15	Lubrizol Meera Raghuram: new excipients and regulatory risk assessment USP Spotlight Stage

Talks and networking are listed separately from posters. Check the live programme for room or time changes. Sources: AAPS programme and company event announcements.
